Shipping

Buyer pays for all shipping costs. Will ship to United States and the following regions: Asia, Caribbean, Europe, Mexico and Central America, Canada Australasia, South America. See item description for shipping charges.

Seller assumes all responsibility for listing this item. You should contact the seller to resolve any questions before bidding. Auction currency is U.S. dollars (US \$) unless otherwise noted.

Description

This is a nice old 19th century brass miner's gold scale. The case looks original and has some lettering printed on the bottom but I can't make it out. This blue case with the gold eagle on the cover is in very good condition with only a few small dents. The scale is in excellent condition and it appears that none of the small weights are missing. Please email me if you have any questions about this item. Buyer to pay exact shipping charge of 3.50 for priority mail. International shipping & insurance is extra. Check my other auctions and save on combined shipping costs. Payment must be sent within 7 days of auction close unless other arrangements are made. Personal check is OK if you have good feedback, but will hold until clear, money order or bank check will ship at once. We also accept PayPal, it's easy to use, free, and accepts Visa, Discover, American Express, or Mastercard.

Just click on the icon to learn more. Good Luck!

Description

Mc Nelly rocker balance

Counterfeit coin detector for U.S. gold and coins patented by J.T.Mc Nelly and W.H.Han Feb 28th, 1882. The slots in the platform (diameter and thickness of the coins. Verticals below the platform hold the coin in place weighing. Hard to find with original peg wt needed to weigh the 1 \$ gold coin

Shipping weight is about 0,5 KG / Volume about 1 KG

Information about Calculation for shipping :

<http://cgi.ebay.com/ws/eBayISAPI.dll?ViewItem&item=715086416>

09/25/2002

Safe shipping to the USA need good packing. Small items can go mostly in a single box of small size. By this way we have to pay only for the correct weight.

Means, a item with an weight of 1 KG + packing material has an weight of 1.5 to 2 KG

Larger items , or items which need a good DOUBLE boxed parcel + much bubble foil or other packing r can not be shipped by weight as the parcel size is to large.

Means, a item with an weight of 5 KG BUT with an parcel size of 60 x 50 x 40 cm has an VOLUME weight of 20 KG (60x50x40 = 20.000 / 6000 is 20 KG)

I always try to calculate fair for my bidders. Proof my shipping cost over UPS or FEDEX Homepag and you will see, I always pay a part of 30 to 50 % by my self !

I do not charge for packing material and handling !

I can not insure over 1000 \$!

But as last, the insurance makes not TOO much sense. Why ?

Well, because the Shipping companies do not insure Antiques.

The reason is, an Antique collectible has an higher value than the same item NEW build.

A shipping insurance want to insure only if there is an way to get an SECOND example based on t same investment like the lost item !

For sure... not easy. Of course I had an research for an Antique insurance. But the shipping costs are ways to high. My research end with 2500 \$ insurance by one parcel as maximum / 5 KG for So please, ask me for special insurance if wanted !

I never lost an parcel at this time, and SPEED SHIPPING is often much better than each expensive ins which may makes more trouble than helps if needed ! If you have better information's LET ME KNO

Payment instruction:

I accept Personal checks which need 10 days to clear

I prefer cashier checks or Money orders as they need no time to clear.

I do NOT accept cash.

I accept Paypal only if NO other way exist as Paypal cash now a very high fee

Information for bidders:

I, for my self, hate poor pictures and wrong descriptions. But of course some items are not easy to pic and my English is not perfect enough for perfect text descriptions.

So please ask me all questions which you have before the auction end. I always answer ASAP If I made an mistake, or an item has an repair which I also did not saw. Contact me and we will find alwa to clear this problem. Bidders with more than 3 Negative feedbacks may contact me BEFORE biddi Bidders with several bid retractions (players ?) may think better over there gambling on ebay ! I chancel and block bidders which play games on ebay and by this way also on my auctions !

Seller assumes all responsibility for listing this item. You should contact the seller to resolve any questions before bidding. Auction currency is U.S. dollars (US \$) unless otherwise noted.

Description

This set is contained in a white metal box painted dark green as can be viewed in the accompanying image. Wording on the cover says "Miners Improved Gold Scale Manufactured Expressly for California" It is in wonderful condition for the period and comes with weights ranging from two pennyweights to one ounce. For your benefit, this set is listed here with a LOW starting bid and NO RESERVE!! If this unique area of collectibles is for you, you can find more amongst our list of all scales and weights presently being auctioned at "[VINTAGE SCALES & WEIGHTS](#)". Also, please review our list of other items similar to this one at "[kfour](#)". You will be contacted by us when the auction ends regarding payment, shipping and insurance options. Please do not pay any amount prior to receiving an e-mail from us. Buyer pays shipping and handling. If you win multiple listings of ours, we will do the best to lower the overall shipping costs to your benefit. Shipping and handling to any U.S. address is \$3.00. Thank you for your time.

VERY IMPORTANT!

Due to the eBay Live Convention June 21st - 23rd, we will be unavailable to answer questions or process listing closings after 5:00 p.m. Pacific Time Thursday, June 20th. We will return by Tuesday, June 25th and will try to answer questions and process listing closings as quickly as possible. We appreciate your patience during this time and will try to respond to everyone. Thank you.

Description

This is an original set of gold scales in a case that is marked 'Expressly for California ' these could have been used for the 'Gold Rush!' The tools of measurement still remain, I don't know if they are all there. A very old piece. Great condition ! Great item ! Thanks for your interest.

Bidding

Bidding is closed for this item.

This page is available on eBay for a limited time only. Please print a copy for your own records.

If you're the seller or the high bidder - now what?

1. Contact each other. The seller ([tom50d](#)) and the high bidder ([andyrama](#)) should contact each other within three business days to discuss payment and shipping details.
2. Leave feedback for the other party once the the seller has received the payment and the winning bidder has received the item.
[Leave feedback to seller](#) - [Leave feedback to bidder](#).

Details for the seller and high bidder(s):

The seller should contact the winning bidder(s) with information on the total cost, including shipping, and where to send payment. The winning bidder(s) must pay the seller directly for the item(s), and it is the seller's responsibility to fulfill the order when payment terms are met. The binding contract of the auction is between the winning bidder and the seller.

If the seller is unable to establish contact with the high bidder within 3 business days of the end of the auction, he/she may lose the place as winning bidder, and be at risk for receiving negative

feedback and/or a [Non-Paying Bidder](#) warning, both of which can ultimately lead to suspension from eBay.

Description

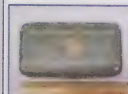

This pocket scale is a "MINERS' IMPROVED GOLD SCALE", "Manufactured expressly for California". The metal scale box measures approximately 5 5/8" by 3". The photos show the box condition and finish very well; the paint finish is crazed, the bottom of the box is missing most of it's green finish. The weights consist of a 2 oz., 1 oz., 1/2 oz., 10 dwt, 5 dwt, two 2 dwt, 1 dwt, 6 grains, 5 grains and 4 grains. I can find no manufacturer marks on any of the scale parts. The scale has not been cleaned or polished; it's in the condition as I found it; the item was found in Ukiah, California. ALL THAT BUSINESS STUFF..... I do my best to accurately and honestly describe the condition of the item(s) I list, but if you have additional questions please email me at gameuki@pacific.net. Buyer is to confirm within three days receipt of the "winning notification" of auction with their mailing address and shipping instructions. Payment by Money Orders or Cashier Checks get next business day shipment, personal delay shipping 5-10 days for check clearing. Payment must be received within 7 days of the end of sale. U.S. buyer pays priority shipping and handling of \$8.00 plus insurance is required, this amount to be determined base on selling price; Canadian buyers, the shipping and insurance cost will be determined at auction end. In the unlikely event of damage, buyer is responsible for filing the claim; I'll send along any needed paperwork and do what I can to assist from my end. Returns accepted within two days of receipt, with email notification, if my item description is not accurate; less return shipping, insurance and eBay charges. Seller reserves the right to cancel bids from those with negative or questionable feedback. Please... save us both the hassle and do not bid if you can't abide by these terms.

Description

1940s PORTER COUNTERFEIT DETECTOR - WOW!

This is a 1940s Porter Counterfeit Detector for Currency, checks, bonds, coupons, signatures and fingerprints. This device consists of fine French glass, ruled in diamond-cut lines into innumerable small squares. The trimmings and appliances are brass and the base board and hinged case are mahogany. A genuine bill is placed under one side of the glass, the suspect bill under the other. The minute subdivision of each square can be separately inspected and the counterfeit easily detected. The machine originally came from L F & D Equipment (Export) Co. of San Francisco, California. The top of the mahogany case has several small dings, along with some chips in the wood near the push-in opening mechanism. The glass inside is completely intact and the brass

Description

Old Small Miners Gold Scale in Case Nice !

This scale is contained in the original case. The hinge on the lid has become separated from the bottom. It is green in color and has faint but readable gold lettering. Across the top is written MINERS JMPH WED GOLD SCALE. In the center is the image of an eagle with its wings spread, clutching a leafy branch in its talons, there is a shield upon its chest. Beneath this is the smaller

IMPROVED

lettering " manufactured expressly for California. Inside of the case is a small compartment that is hinged and has a small loop of metal for a handle to open it. The wall that makes up this compartment has come loose at the bottom edge. The scale is made of brass and is a balance arm scale. I can find no manufactures mark on the scale or the 5 nesting weights. There is a small iron arrow shaped pointer that can not be seen in the photos. This is in the center of the balancing arms and when it is balanced it is dead center of the brass piece in the center that the scale is held by. Each of the nested weights is marked according to its' weight. They are 2 troy, 1, 1/2, 1/4 and 1/8. The two ounce is the only one with troy marked on it. Please email us with any questions.

Cash, money order, personal checks and paypal accepted. Payment must clear prior to item shipment.

Buyer to pay for shipping and handling. Item is guaranteed to be as described, however shipping charges are the buyers responsibility, including returns, and will not be reimbursed.

Insurance is included unless buyer requests no insurance.

Description

The Realm coin counterfeit coin detector is a now hard to find item, and was used in the UK and any country with British currency to verify the pre decimal 6 pence, one shilling, 2 shilling and half crown (2/6) coins as shown in the photos. The label on the reverse gives full instructions for use. The coin detector could be screwed to a counter top. Buyer pays all shipping & insurance costs. We accept Cash, Sterling or Dollar cheques, (dollar cheques will incur a small fee to cover high bank charges) and PayPal. We ship internationally.

Description

RARE 1895 Fairbanks Coin Tester & Postal Scale

FAIRBANKS COIN TESTER & POSTAGE WEIGHT SCALE

TYPE: Steelyard - Platform above equal arm beams. "Steelyard" is defined as a device in wh the location of the fulcrum and the location of the object to be weighed are at a fixed point or the beam. The counterweight, located on the other side of the beam, is movable along the bea to achieve equilibrium. The scale exhibited here is a Type IV Hoag / Fairbanks steelyard desi

DESIGNER: George Hoag. **PATENT:** #216,184. **DATE:** Initially issued June 3, 1879 but modified and reissued in 1895.

MANUFACTURED BY: E. & T. Fairbanks & Company, Saint Johnsbury, Vermont

DESCRIPTION: Brass platform with 9 slot gauges parallel to the beam to hold 10, 25, 50 c and \$1 silver coins plus \$2/12, \$3, \$5, \$10, and \$20 gold coins. The slots in the platform determine the diameter and thickness of genuine coins, while the use of the coin beam determines the weight of the coin. Thus the three necessary requirements – weight, diameter, and thickness are shown. The main beam is used for weighing ordinary postal matter up to 9 ounces. Note: There is no consideration given for weighing \$1.00 gold coins. The beam is marked with denominational amounts for each coin at various predetermined points. The words “PAT'D FEB 26, 1895” are located on the beam directly under the platform. The stem under arms of the platform support has a cast iron cap over an opening for lead shot to be used to achieve initial equilibrium. The cap also has a volcano type top to prevent the secondary fulcrum from displacement. The cast iron base has the word “FAIRBANKS” cast therein.

Condition: We are not experts at scales, but to us it appears to be excellent over-all, the brass portions; once polished. Original paint. Worked well for both detecting counterfeit US coins (late 1890s to early 1920s) and weighing letters.

On Aug-31-04 at 08:15:58 PDT, seller added the following information:

The scale is 5 inches high, 10 inches long, and 4 inches wide or deep - (front to back). The flat platform coin slots is 3 inches by 4 inches, and the cast iron base is 3 1/4 by 4 1/2 and of course it is as high as the overall measurement save the thin thickness of the brass platform.
